Installers and Dealers, have you ever experienced?

Cracked tiles? Low grout joints? Efflorescence? Out-of-square layout?
Epoxy grout haze? Lippage? Dirty grout joints?

Are you confused with the many different types of floor maintenance products on the marketplace and which types to recommend? Wondering what types of corrections can be done on site?

Classroom and hands-on training of ceramic tile with product from several manufacturers following TCNA and ANSI guidelines. Materials for future reference are included.

Hands-on course provides the opportunity to participate in an installation from start to finish
